**EXAMINER'S COMMENT**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on February 11, 2011 has been entered.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on February 11, 2011 was filed after the mailing date of the Notice of Allowance on October 25, 2010. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

***Allowed Claims***

3. Claims 22-27, 29-35 and 66-105 are allowed.

#### **REASONS FOR ALLOWANCE**

4. The following is an examiner's statement of reasons for allowance: The information disclosure statement filed February 11, 2011 did not reveal any prior art references that, alone or in combination with other references, disclosed or suggested all of the limitations of independent claims 22, 35, 88 and 102. The IDS did reveal relevant prior art references which are referenced in the "Conclusion" section of this Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent No. 5,800,414 to Cazal cited in the aforementioned IDS discloses separable lumens wherein an elliptically shaped central conduit can function as a bisecting wall. Cazal also discloses that the lumens are attached to one another by adhesive but does not disclose or suggest that they are formed by first splitting a unitary tube having a generally convex surface without ridges or grooves longitudinally along a distal portion of the unitary tube to form first and second distal end tubes (the separable lumens) and then bonding at least a portion of the first distal end tube to the second distal end tube to releasably attach the first and second distal end tubes.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MELANIE J. HAND whose telephone number is (571)272-6464. The examiner can normally be reached on Mon-Thurs 8:00-5:30, alternate Fridays 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
